

CLOGHERHEAD
Offshore Wind Farm

ENERGY FOR A BRIGHTER FUTURE

ESB & PARKWIND TO HOST EVENTS
ON CLOGHERHEAD OFFSHORE WIND

ESB, Ireland's largest renewable energy generator, and Parkwind, a leading Belgian wind energy company, will host a series of consultation events on the proposed Clogherhead Offshore Wind.

A virtual public consultation on the proposed project will launch on Monday 6th March. The consultation will be open for a period of 6 weeks, closing on Sunday 16th April. It will provide up-to-date information on the project as well as offer an opportunity for interested parties to provide feedback and get informed of project progress.

A webinar will then held from 7:30-8:30pm on Tuesday 14th March which will provide up-to-date information from the Clogherhead Offshore Wind project team as well as offer an opportunity to the public to submit questions or provide feedback. A recording of the webinar as well as all questions and answers will be added to the project website www.clogherheadwind.ie after the event. If you wish to attend or submit questions in advance, please email info@clogherheadwind.ie.

In addition to the webinar, a series of face-to-face public exhibitions on the project are also scheduled. The exhibitions will offer attendees the opportunity to review up-to-date information on the project or meet with the project team. The exhibitions will take place as follows:

- Tuesday 21st March, 4-8pm – St. Peter's Church of Ireland Parish Hall, Drogheda
- Wednesday 22nd March, 4-8pm – Kilmorey Arms Hotel, Kilkeel
- Thursday 23rd March, 4-8pm – Clann na Gael GAA Club, Dundalk

Please see www.clogherheadwind.ie for further information on the Clogherhead project.
